

### REGULATIONS OF "SZAR"

1. **Praying the first ten of the Rosary' prayer daily by students and pupils**
2. **Change the main intention of the prayer every month**

School's catechist establishes and controls the community of the followers. The catechist voluntarily accepts the above mentioned form of evangelical work amongst students.

#### **The proposed actions to be taken by catechist:**

1) to inspire students to pray the Rosary. It is suggested that the CD's content should be taken into consideration.

Listen to the **CD "The Rosary, our defensive rampart."**

2) to establish a list of participants in each class and add their names to the appropriate list. Have a look at "Registrations to Szar"

The army of the school is created from a small number of students, which turns into an army of the parish, deanery or diocese.

3) to develop a daily habit of praying first ten prayers of the Rosary in order to grow spiritually in the community and join the prayer of meditation on the mysteries of the Rosary. Such a habit can start for example from 3 – 5" Hail Mary's" and gradually increase to full prayer.

Students pray especially at home, at any time, either individually or with others, such as: a sister, parents, etc.

Rosary's prayer can be part of other prayers which take place for instance in the classroom during the lessons of catechism, in after-school meetings, etc.

Every Wednesday, all members of "Szar", if possible, start their prayer at 20.00 Hrs or at 21.00 Hrs (optional)

It may be called" a communal five minutes of prayer for the Virgin Mary". In smaller schools we come across a different solution, catechists meet their students during long breaks in order to pray the first ten prayers of the Rosary.

4) At the beginning of each month, catechists together with the students establish the main intention of the prayer for the month. You can take advantage of our study: " Intentions of the prayers for the members of Szar", look up " Publishing Materials."

5) "Animator" can be selected from pupils' or students' community interested in following the idea of "Szar" to represent the movement (" the commander" of the army). His tasks: communication between members of "Szar" and the catechists, encouraging students to pray, introducing proposals for actions.

6) When notification has been received, CK enters students name to national ( polish) "Book of the School's Rosary's followers" where each student has a specific entry number.
